## The Playing Field

Welcome Humbhrey and Lauren, to Simpaticos, an analysis of your relationship, through the use of a unique tool, the Composite Chart. This is a type of chart that astrologers use to get an overview of a partnership. It is constructed by using the midpoints between each of your individual charts. The Composite Chart is a Blueprint that represents a symbolic meeting place of your shared mental, physical, emotional and spiritual chemistry.

Have you wondered why the two of you find it easier to agree on some topics and experience distance when trying to discuss others? This report will likely touch on some areas where you might need insight.

There are no perfect relationships. We can strive to make our interactions with others more productive and meaningful. The pages that follow will describe places of harmony in your relationship. It will also point to places of potential conflict. You will notice that some descriptions will appear to contradict each other. Astrology offers a lens through which to view a wide variety of ways to express ourselves in order to make better use of our vast resources.

Relationships are made more from the fabric of a verb, rather than that of a noun. They are in a continuous process of becoming. You will eventually have changing expectations of one another. Your individual search for growth and new direction is rewarding and yet can create tension. It is important to find ways to make room for your individual needs. Nothing truly stays the same. Perhaps this report will inspire the two of you to find ways to mentally stay on the same page. Communication is so vital in clearly relating to each other.

Romantic love is a powerful belief system in modern day society. Some people have even compared it to a religion. Our faith goes out to another person. Romance charges a relationship with more emotional intensity than any other type of partnership. Many of our hopes and dreams are invested in finding a soul mate.

We seek happiness in a lover. How can such a simple thing get so complicated? It's that each of us has our own definition of happiness.

This report could create new options. Relax. It is not intended to judge either of you. Pause if something makes you take a deep look at yourself or your partner. Each of us is really a student of life when it comes to relationships. Learning how to communicate and to truly hear the mind and heart of another person is a life long quest. Remember that you are not alone when it comes to understanding how to better handle your human relations.

Humbhrey and Lauren, try to let your eyes scan the pages that follow with an open mind. Perhaps you will be stimulated into taking a refreshing look at one another!

Happy Navigating!

## **The Players: The 10 Planets**

### **Part One: The Lead Roles**

#### **The Sun**

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Humbfrey and Lauren.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

#### **Sun in Aries**

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Aries gives your relationship a touch of romantic spontaneity. The two of you can display a tireless creative vitality. The keyword phrase for Aries in traditional astrology is "I am." What does this mean? You expect one another to respond quickly to your pleas for attention.

A desire for immediate gratification comes standard with this fiery sign. Neither of you need the other's permission to take action. Moving swiftly through life together is exhilarating. Getting instant results is something you expect.

Courage is a spark that gets lit in your being together. Take the initiative to conquer the circumstances that might come between you. Talk openly about your needs.

Your natural leadership qualities might find your relationship inspiring others to action. Seek a spirit of cooperation in dealing with conflict or adversity. Recognizing the territorial needs of each other will go far to establish harmony. Be brave in not giving into your individual and shared fears.

Acknowledge the strength of one another to find a sense of self. Do not run away from the natural intensity you awaken in one another. Give each other equal attention. Beware of short attention spans.

There is enough room in this relationship for your likenesses and differences. Let your competitive spirits take you to new heights.

Do you sometimes feel impatient with each other? This could be an area the two of

you need to work on. Give yourselves a chance to catch up to one another during major changes. Give your partner advance warning before making a major decision.

Assertion is another key theme. You both need to feel free to express anger and to speak your mind--don't you? Denying anger could "make a mountain out of a mole hill." Carelessly invading each other's territory may produce resentment. A give-and-take attitude might help reduce stress and tension. Negotiate from the heart as well as the head.

Your creative vitality leads you to climb great heights together. But do look before you leap. Take the time to understand the inner motivation for your individual and joint actions. Enjoy the spark of confidence you bring to each other. Make each other feel important, and you have a winning combination.

### **Sun in the Eleventh House**

Freedom, friendship and future goals are highlighted in a big way. You inspire each other to bravely move in new directions. Your relationship tends to be goal-oriented. Riding unpredictable waves of change can simultaneously scare and thrill you. Living for the moment is more exciting to the two of you than worrying about the past. You can show an inventive streak that points the way to keeping your love refreshed. Unconventional sparks fly frequently from your minds.

Peers are stimulating to your lives. People can find you to be full of surprising ideas. Unique individual goals may bring shared excitement. Your ability to work together in unusual ways might be enjoyable. A loyal friendship could be at the root of your relationship.

Mutual respect for independence encourages closeness. Both of you have a talent for bringing new life to groups or individuals. This is a partnership that helps to brainstorm alternative ideas. Each of you can enjoy following new trends. There is no real eagerness to follow in the footsteps of others.

Too much aloofness can hide emotions. A preoccupation with self-absorbed thoughts causes distance. Living exclusively in anticipation of the future can cause a disoriented present.

Support for each other's goals keeps you communicating. Share your visions of the future. Don't always walk alone in your own head. Allow each other to voice opinions. Look for new creative options to old problems. Support the freedom needs of one another, and you will have a friend forever!

### **The Moon**

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

### **Moon in Virgo**

With your relationship Lunarized through the sign Virgo, you share an allegiance to the work ethic. You probably believe there is no sense in doing a job if you are not going to give it your best effort. You can possess a keen awareness of each other's emotions. Concern for each other's health is endearing. There can be a strong interest in diet and staying physically fit. Exercise sure is a big help in working off nervous energies.

A sharing of practical skills and know-how is something you can do for each other. You can enjoy taking workshops or classes together. Learning how to integrate your knowledge can pay dividends. You can be helpful in giving your partner business advice. Don't be in a hurry to give your critique of the other's job performances unless you do so delicately. Criticism could be taken the wrong way if delivered insensitively.

Be sure to rest at home, as well as work on projects. Learning to share household responsibilities makes you feel you are part of the same team. Creating order where you live probably is good for your mental health.

Have you grown tired of waiting for your partner to be perfect? Neither one of you will ever be free from making a mistake. Keep your expectations reasonable. You can't do the impossible. The two of you are conscientious about fulfilling your obligations. Others will appreciate your sincerity in taking responsibility seriously.

Beware of becoming a workaholic. There is a temptation to push yourselves endlessly until a project is completed. Being too attached to endless details can produce a lot of working overtime. Be sure to make time for fun experiences.

Let your imaginations guide you to support each other's desire for growth. Listen with an open ear and communicate with an open heart. This will keep you fond of each other.

### **Moon in the Fifth House**

You can be very supportive of each other's creative needs. There is an urge to move forward with enthusiasm. Financial and property investments can bring lucrative returns. The two of you like to do things in a big way. Showering one another with gifts is delightful.

Your partnership may be highlighted with humor. Keep the romance alive through adventurous living. Playing it extremely safe does not fit this picture. There is a theatrical side to you both that sees the world as a place to act out your dreams. Go for it!

You are "show me" kinds of people that expect others to follow through on their promises. Talk with no action behind it will not impress either of you. You would rather see somebody willing to take a risk than someone afraid to follow a hunch. There is pride in being together. Public recognition could come to either of you. Your relationship attracts attention. People in important positions will try to cultivate your support.

Your home is a dramatic representation of you both. It is a place from which you like to make a strong statement about yourselves. You can even be a bit lavish in buying possessions for your residence. You really need to be able to let your hair down at home. It is the springboard for much of your self-confidence. If you can afford to buy a getaway vacation place at the beach or in the mountains, you will probably do so.

A mutual determination to work through problems adds durability to your relationship. An appreciation for the individual right to be oneself is essential. Power struggles surface if you get too demanding. Sharing the spotlight keeps you from fighting for attention. It's nice to be told how important you are to one another.

Let your intuition lead you to rejoice in a lively romance. The birth of individual and joint creative ventures keeps your life spicy. Let one another experience feeling important in your own way and life together will be fulfilling.

### **The Ascendant**

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

### **Ascendant in Taurus**

People may see the two of you as having calm personalities, and acting as a stabilizing force for each other. Your partnership has an aura of serenity and peace. You could even look wealthy or financially secure, whether this is true or not. You move with grace and poise. It's not smart to try to force either of you into making decisions. Surprising one another with a gift now and then promotes a spirit of well being. Showing affection openly is comforting. Make each other feel valued, and you are a winning combination.

### **The Part of Fortune**

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

### **Part of Fortune in Libra**

Your shared love of people makes good things happen. The two of you are gifted in pleasing the public. Relationships with friends and business peers add a special dimension to your lives. The effort you make to be active players in each other's lives

demonstrates your dynamic relationship. Your partnership can be a lighthouse when you go through emotional seas. The romantic pulse of your hearts wants to be expressed in creating loving atmospheres. It is when you are decisive that life sends you good fortune.

### **Part of Fortune in the Sixth House**

It's your willingness to humbly learn new skills or ways toward self-improvement that summons the presence of good omens. You will never be perfect in each other's eyes. The sooner you see this; your time together will be more user-friendly. It's when you roll up your sleeves and work together that you shape a successful future. You may discover beauty and meaning through serving a joint purpose. Business dealings may point the way to abundance and self-satisfaction. Getting the most mileage from your efforts is a similar drive.

Each of you can be real creative in getting the other out of a low mood. Showing affection openly can please you both. There are instances when you make each other nervous. If you put your ideas into action you are better off.

What might need to be balanced? You can try so hard to please your partner or others, that it makes decisions hard to make. Practice will make perfect, or at least you can get more decisive. ### **Mars**

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

### **Jupiter in Scorpio**

The two of you don't scare easily when you want to know the real scoop about a situation. Secrets are not easily kept from each other. The blunt honesty in your tongues can send shock waves through each other, and the people you meet. Your words and beliefs have a lasting impact on others. You have little respect for hypocrisy.

The researchers in you lead your minds to master an area of interest. When your attention is captured, your concentration is intense. Psychology, metaphysics, and even the world economy can be regular topics of discussion.

Your dependable trust for one another can be profound. Friends and loved ones respect your ability to give sound advice. Your knowledge comes more from experience than a book. Be tolerant of the differences in your personal belief systems. Accepting opposing viewpoints only serves to deepen your connection. It will be difficult to really change each other's most cherished ideas!

Travel allows your two minds to process your individual and joint paths. The intensity with which you approach life together needs to be mixed with plain good-old-fashioned fun. A sense of happiness and expansive growth occur when you make your partner feel materially and psychologically secure. There is a desire to pursue the best life has to offer. There is luck in meeting people with influence that can improve your chances of success.

You raise each other's self-confidence more than you undercut it. Just be careful with unfounded overconfidence. Don't allow your generosity to be taken advantage of by others. Be aware of one other tendency. This is promising more than you can deliver to each other, or to those making demands on you. Be reasonable in your expectations. It is okay to say no, or to limit what you can do.

People probably find you an uplifting twosome. Your self-confidence enhances the well being of those you know. Some individuals may believe you bring them luck. You appreciate people with integrity and vision. Exchanging philosophical ideas with friends and new acquaintances is stimulating. There needs to be the freedom to spend time with your own personally favorite peers.

## **Saturn**

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

### **Saturn in Scorpio**

It is quite an adventure to really get to know one another. This is not likely to happen overnight. You both can show caution in warming up to each other. When the trust deepens, you have a solid relationship. Your focus together is hard to match. When you put your best foot forward to be successful there is nothing that can stop you. Talk openly about your fears and worries. The better you understand the other's mind, the clearer the communication.

Joint investments can prove prosperous. Sharing your resources is testy. Each of you needs to feel part owner in the finances and property. Money issues can cause tension. You will need to be honest and direct in this area. Power is a key consideration. It must be shared. Why? It causes less arguments.

You both will put all of yourselves into the roles that are important to you. Whatever is entrusted to you is treated with serious regard. Management opportunities will present themselves to you. People see you as task-oriented and capable of getting results. The two of you make great problem-solvers. Business savvy comes standard with you two. You can market your skills to a receptive public.

Experience teaches you how to interact with one another. Solitude is a tendency as individuals and as a couple. The world may never know your complete stories. Who cares? Just so you reveal them to each other!

## **Uranus**

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

## **Uranus in Capricorn**

Your thoughts about the future probably revolve around serious ambitions. Career and business plans can be a popular topic of interest. The way you live out your various roles may be unique. Allowing for spontaneity will make your time together more enjoyable. If everything gets too predictable you will be less fascinated with one another. Although, you may be happy with the way the two of you get results. Discipline will at times be a snap. If you outgrow situations, you will grow restless and more outspoken in stating your discontent. Give your partner the freedom to talk openly about a need to seek more exciting roles.

Your friends might be amazed at the way you can efficiently get a job done. You tend to like people that have a serious and upbeat demeanor rolled into one. Individuals with goals awaken your own hopes to be successful. Your peers can be entrepreneurs and business wizards. Your commitment to those you care about is sincere.

Defining your goals comes naturally. Rigid mindsets will get you angry with each other. Becoming mesmerized by one strategy is not wise. You need options and ways to express your versatility. Breaks in your schedules from work allow you to focus on one another more intimately.

## **Uranus in the Ninth House**

Your minds can enjoy flying around the world on the physical and mental realms. Enterprising ideas emerge suddenly when the two of you least expect it. You are able to convince others to believe in you. Persuasiveness is on the tip of your tongue whenever needed. Talking each other into pursuing a direction may not be easy, if you both don't feel the same enthusiasm. You have to win your partner over. When you both decide to move together, there are few couples with as much zeal to forge ahead. Adventure is your hallmark of being together. Without ideals or a major plan to motivate you, it can feel like driving a car with four flat tires!

Your friends are a stimulating bunch of people. You need those able to communicate from their heads and hearts, woven into your lives. Self-discovery lifts your imagination to higher levels. You probably consider yourselves able to take advantage of opportunities. Education and training excite your minds. Leaving the past behind is not hard for you. Your vocal chords are filled with emotion when expressing your truths. This may be a key part of your bond.

## **Neptune**

There is a planet that adds a mystical tone to our lives. Neptune defies being labeled as part of the physical world. It is our spiritual awareness on one hand and desire to escape from earthly reality on the other. Both are possible!

In mythology, Neptune was Poseidon, god of the oceans. This water god represents the strong emotions that love activates. Do the two of you feel any common ground when it comes to your highest beliefs? If you do, it might be associated with this planet's symbolism.

Faith is a Neptune theme. Neptune's sign and house will point to the ideals and causes you share. Your intuitive insights into one another can also be revealed here. Shadows of Neptune are denial and guilt. Keep these tendencies in check. It will ensure greater clarity and closeness. If you don't, it can feel like you are eating chicken broth with a fork.

Aesthetic interests are another part of Neptune's world. Your shared interests in art and music can come through loud and clear.

### **Neptune in the Third House**

You may be able to tune into each other's thoughts. Your minds on occasion will feel like they are joined at the hip. The world can seem like a playful place for your imaginations. Teaching one another how to stay clear of worry could occur. When you both find your perceptions clouded over by emotional troubles, a short trip works wonders. Going to the movies, an outdoor concert or choosing other forms of entertainment gets you back on track.

Your beliefs may not follow any one persuasion. Taking many different paths makes for the diversification you both require. One set of anything doesn't fit into your relationship picture. Something will seem out of focus if you try to convince your partner to think on a one dimensional level. You share a peripheral vision to satisfy your curiosity to see what lies beyond your immediate awareness. The horizon seems to beckon to you to search for meaning in not so obvious places.

Communication is a great tool. Use it! You must give each other a way to read what's going on inside of your head. The quickest way to do this is to talk openly. You can influence each other to excel in painting clear pictures, with words, for others. A talent in writing and consulting can be enriched through knowing one another.

Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

### **Midheaven**

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

### **Part Three: Planetary Aspects**

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant

or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.
